ARCHITECTURAL LUXURY STREETWEAR • MADE FOR THE RARE

Domain: rareember.shop
Founder: Ajay Kumar
Date: November 2026 | Production Build v2.0
GMC Account ID: 5885607413 (Approved)

EXECUTIVE STATUS: All 4 core rollout gates have been executed, verified, and deployed to live production. The catalog enforces strict quality floors (banning all 180 GSM fabrics), provides frictionless checkout by eliminating email OTP verification, protects unit economics with a minimum **20%+ Net Profit Margin under full Both-Side (Double-Sided) DTF printing**, and eliminates RTO delivery fraud via the **₹100 Partial COD Advance Booking Model**.

1. Qikink Landed Cost Engine & Both-Side DTF Margin Table

Every garment in the RareEmber catalog is cost-engineered assuming **both-side high-density DTF printing** (Front chest/typography print + Large rear statement graphic). Even when customers utilize the **₹50 Instant UPI Prepaid Discount**, net profit remains strictly above **20.0%**.

Partial COD Margin Upside: When a customer selects Cash on Delivery (₹100 advance online + remaining balance at doorstep), RareEmber adds a transparent **₹49 Courier COD Handling Fee**. Because Delhivery/BlueDart charges ₹40 for cash collection, RareEmber generates an additional **₹9 net cash buffer per order**, raising COD profit margins to **24.5% – 28.5%**.

2. Frictionless Checkout & Anti-RTO Partial COD Architecture

2.1 The Two-Option Checkout Model

⚡ OPTION 1: 100% PREPAID (DEFAULT)

Mechanism: Razorpay UPI, Cards, NetBanking.

Incentives: Instant ₹50 UPI Discount auto-applied via `PREPAID50` + ₹0 COD handling fee.

Cash Flow Benefit: Settlement deposited into company bank within T+1 days, avoiding courier remittance float.

📦 OPTION 2: ₹100 PARTIAL COD

Mechanism: Pay ₹100 online booking advance now via UPI.

Doorstep Balance: Balance (`Total - ₹100`) collectible upon arrival via Cash or UPI QR scan.

RTO Defense: Financial commitment slashes bogus/impulsive RTO rejections by 85%+.

2.2 Complete Removal of Email OTP Verification

Previously, zero-advance COD relied on sending a 6-digit cryptographic token via email. This introduced high friction: spam folder delays, DNS verification latency, and high checkout drop-offs.

- **Zero OTP Barrier:** Email verification codes have been completely excised from the storefront.
- **Transactional Email Only:** Email is captured solely to deliver the PDF GST Tax Invoice and Delhivery/BlueDart live tracking link.
- **Intent Verification via UPI:** The ₹100 online advance acts as the irrefutable identity and intent verification.

2.3 Tamper-Proof Razorpay Webhook Guard (`/api/webhooks/razorpay`)

To prevent malicious actors from paying ₹100 and tricking the system into marking an order as 100% prepaid, the webhook enforces strict amount-parity verification:

```
// /api/webhooks/razorpay/route.ts
if (order.payment_method === 'prepaid') {
  // Enforce 100% exact total match (in paise)
  if (payment.amount !== Math.round(order.total_amount * 100)) {
    throw new Error('Prepaid amount mismatch: Payment spoofing attempt detected');
  }
  order.status = 'paid';
} else if (order.payment_method === 'partial_cod') {
  // Enforce EXACTLY 10,000 paise (₹100 advance deposit)
  if (payment.amount !== 10000) {
    throw new Error('Partial COD advance mismatch: expected 10,000 paise');
  }
  order.status = 'partial_paid_cod_pending';
  order.advance_paid = 100;
  order.cod_balance = Math.max(0, order.total_amount - 100);
}
```

2.4 Qikink Automated Dispatch Guard (`/lib/fulfillment/qikink.ts`)

When an order is dispatched to Qikink, the system ensures that the courier's doorstep collection amount strictly matches the remaining balance, preventing double charging:

```
// /lib/fulfillment/qikink.ts
const isPartialCod = order.payment_method === 'partial_cod';
const qikinkPayload = {
  payment_mode: isPartialCod ? 'cod' : 'prepaid',
```

```
  // Courier collects ONLY the balance (e.g. ₹748 total - ₹100 advance = ₹648 balance)
  cod_amount: isPartialCod ? order.cod_balance : 0,
  gateway: isPartialCod ? 'Razorpay Partial Advance + Doorstep COD' : 'Razorpay 100% Prepaid'
};
```

3. Post-Delivery Automation & Review Flywheel

3.1 Automated GST Tax Invoice (HSN 6109 & 9968)

Upon receiving the `DELIVERED` webhook from Delhivery or BlueDart, an automated itemized GST Tax Invoice is rendered and dispatched to the customer's email.

3.2 Post-Delivery Photo UGC Review Flywheel

⭐ Google Customer Reviews Card

Embedded directly into the delivery confirmation email. Prompts the customer to rate RareEmber on Google Merchant Center with 1 click, building authentic domain trust.

📸 Verified Photo UGC Voucher

Offers **₹100 Store Credit** (valid on next order of ₹999+) upon submitting a verified mirror selfie / fit check. Store credit is redeemed via atomic database RPC, preventing fraud.

3.3 Cart Drawer Progression Tiers (`CartDrawer.tsx`)

- **Tier 1 (Cart Total ≥ ₹599):** Unlocks **Complimentary Pan-India Express Air Shipping** (Delhivery/BlueDart Air) + ₹50 Instant UPI Savings.
- **Tier 2 (Cart Total ≥ ₹1,349 or 2+ Items):** Unlocks **₹100 Multi-Piece Archive Discount** (Coupon: `EMBERARCHIVE`). Multi-item orders share a single airway bill, yielding **~39.9% net margin**.

4. Factory Standards & Technical Architecture

4.1 The 240 GSM Structured Cotton Standard

To preserve our positioning as an independent luxury streetwear label and avoid customer disappointment, factory blanks must comply with strict engineering guidelines:

- **Total Ban on 180 GSM:** All 180 GSM fabrics (including SKU 5474) are permanently purged from the active catalog and feed.
- **240 GSM Structured Cotton:** 100% super combed bio-washed single jersey. Labeled as *"240 GSM Structured Cotton"* (never "Heavyweight" for tees) to set accurate tactile expectations.
- **Heavyweight Outerwear (320–380 GSM):** Hoodies, sweatshirts, and joggers use 320–380 GSM brushed fleece or French terry.
- **DTF Print Dimension Capping:** Front chest prints are capped at **4.5" × 4.5"** (or 8" typographic wordmarks). This prevents rigid "plastic shield" sweat patches and preserves natural fabric drape.
